Re: **Authorization 2007DB0002-0022, Seven Seas Mariner, Revision 1**

Dear Ms. Riccelli:

On May 5, 2008, the Alaska Department of Environmental Conservation (DEC) completed its review of the Notice of Intent for the Seven Seas Mariner to discharge wastewater under the Large Commercial Passenger Vessel Wastewater Discharge General Permit (GP) No 2007DB0002 and issued authorization 2007DB0002-0022. The original authorization granted the vessel the interim limits for ammonia, copper, and zinc.

On June 19, 2009, Prestige Cruise Holdings Inc. requested interim limits for nickel. The sample results obtained on the vessel on May 30, 2009 support this request. Therefore, DEC has reissued the authorization for this vessel to include interim limits for ammonia, copper, nickel, and zinc.

Any person who disagrees with this decision may request an adjudicatory hearing in accordance with 18 AAC 15.195 - 18 AAC 15.340 or an informal review by the Division Director in accordance with 18 AAC 15.185. Informal review requests must be delivered to the Director of Water, 555 Cordova Street, Anchorage, Alaska 99501, within 15 days of receipt of the permit decision. Adjudicatory hearing requests must be delivered to the Commissioner of the Department of Environmental Conservation, 410 Willoughby Ave., Suite 303, P.O. Box 111800, Juneau, Alaska 99811-1800, within 30 days from the date of the permit decision. If a hearing is not requested within 30 days, the right to appeal is waived.

If you have any technical questions concerning this authorization, please contact Denise Koch at denise.koch@alaska.gov or (907) 465-5312.

Sincerely,

A handwritten signature in black ink, appearing to read "Denise Koch". The signature is fluid and cursive, with the first name "Denise" being more prominent than the last name "Koch".

Enclosure: Authorization 2007DB0002-0022, Revision 1

**Alaska Department of Environmental Conservation****Division of Water****Cruise Ship Program****AUTHORIZATION TO DISCHARGE**

**AUTHORIZATION TO DISCHARGE UNDER THE LARGE COMMERCIAL PASSENGER VESSEL
WASTEWATER DISCHARGE GENERAL PERMIT NO. 2007DB0002**

FACILITY ASSIGNED AUTHORIZATION NUMBER: 2007DB0002-0022

GENERAL PERMIT NUMBER: 2007DB0002

See this General Permit for all permit requirements.

The following facility is authorized to discharge in accordance with the terms of the State of Alaska General Permit 2007DB0002 and any specific requirements listed in this authorization.

The authorization effective date is **June 19, 2009**.

The authorization to discharge shall expire at midnight, **March 25, 2013**.

The permittee must reapply for an authorization on or before **February 23, 2013** if the permittee intends to continue operations and discharges from the facility.

SECTION 1 – RESPONSIBLE PARTY INFORMATION

Prestige Cruise Holdings Inc.

Issued to:

SECTION 2 – FACILITY INFORMATION

ADEC File Number 920.45.001

Facility Name: Seven Seas Mariner

Type of Wastewater Treatment System indicated in the current Department approved Vessel Specific
System and Disinfection: Sampling Plan

SECTION 3 – REGULATED DISCHARGE INFORMATION – EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

Effluent Compliance Point: Wastewater effluent sampling port(s) identified in the DEC approved Vessel Specific Sampling Plan.

The Seven Seas Mariner is authorized to discharge ammonia, copper, nickel, and zinc at the interim effluent limits found in the general permit Table 1. During the entire 2010 Alaska cruise ship season, any wastewater discharged into the marine waters of the state must comply with the long term effluent limits found in the general permit Table 1.

To maintain this approval to discharge under the interim effluent limits, a Source Reduction Evaluation must be submitted to the Department.

Special Conditions:

The authorization to discharge under the interim compliance limits can be withdrawn if the Source Reduction Evaluation is not submitted on time or is disapproved by the Department. If the Department approves the Source Reduction Evaluation, you will be issued an approval letter.

If the Department disapproves the Source Reduction Evaluation, you will be sent a letter that details the deficiencies along with a deadline for addressing the deficiencies. If the deficiencies are not corrected by the established deadline, you may continue to discharge in Alaska waters; however, the discharge must meet the long term effluent limits until your Source Reduction Evaluation is approved by the Department. Additionally, you must submit an annual progress report as required by the general permit section 1.9.12. All other permit conditions and deadlines must also be met.

Discharge Monitoring Report (DMR) The Seven Seas Mariner must submit the appropriate DMR that is found on the Department's website (http://www.dec.state.ak.us/water/cruise_ships/gp/08gp.html) or on a similar form approved by the Department.

SECTION 4 – RECEIVING AREA INFORMATION-RECEIVING WATER

Receiving Area Name: Marine waters of the state of Alaska as defined in the general permit, 2007DB0002.

If you have any technical questions regarding this authorization or the requirements of the general permit, please contact Denise Koch at (907) 465-5312 or denise.koch@alaska.gov.
